Appendix – Visa® Fixed Acquirer Network Fee (FANF) for merchants accepting Visa payments

The Visa FANF is a monthly fee that will be assessed for each federal taxpayer identification number (TIN). The Visa FANF is based on the number of physical locations, merchant category code (MCC), and total monthly gross sales volume (originating from Visa credit, debit, and prepaid cards) associated with the TIN.

Getting ready

To understand how the Visa FANF is calculated, please have the information below available for each TIN:

- MCC number
- MCC description
- Number of physical/card-present locations
- Gross monthly Visa sales volume for card-not-present, unattended terminals (except MCC 5542), merchant aggregators, and fast food restaurants (as a percentage of card-present monthly sales volume for MCC 5814)

Determining the Visa FANF amount

Based on the information obtained in the “Getting ready” section, use the tables and exhibit below to determine the applicable Visa FANF for each unique TIN:

- Table 1a: High-volume MCC merchants (card-present locations)
- Table 1b: All other MCC merchants (card-present locations)
- Table 2: Card-not-present, unattended terminals (except MCC 5542), merchant aggregators, and fast food restaurants volume (if monthly card-present sales volume associated with MCC 5814 is 50% or greater)
- Exhibit A – List of high-volume MCCs

Rules and exceptions

1. Most merchants will be assessed the Visa FANF. The Visa FANF is waived for merchants with more than 50% of total Visa volume from Charitable and Social Service Organizations (MCC 8398) and Religious Organizations (MCC 8661).
2. Based on the defined tables and exhibit, the Visa FANF rates from multiple tables may apply to any given unique TIN:
 - Table 1a and Table 2; or
 - Table 1b and Table 2; or
 - Table 1a only; or
 - Table 1b only; or
 - Table 2 only.
3. Locations with no Visa volume are not counted for calculation or billing purposes.
4. Visa FANF will be billed in the month after it is incurred.
5. In order to qualify for the \$0 fee or 0.15% rate tiers (as shown on Tables 1a, 1b, and 2) TINs must have 100% of their monthly gross sales volume with one acquirer. TINs that use multiple acquirers will not be eligible for these specific tiers and the following minimum fees will apply:
 - For high-volume MCC merchants (card-present): \$2.90 per location
 - For all other MCC merchants (card-present): \$2.00 per location
 - For card-not-present, unattended terminals and fast food restaurants: \$7.00 per TIN

* Monthly gross sales volume refers to the volume for all of your company's locations and/or merchant identification numbers (MIDs) which report under the same TIN. Visa FANF billing is determined by each location's/MID's percentage of total monthly gross sales.

Example of how Visa FANF is billed:

- You're a company with four locations/MIDs with \$4,000.00 in total gross sales for April.
- Using Table 2 above, your company would be Tier 4 with an April Visa FANF assessment of \$9.00.
- Based on each location's percentage of gross sales, you'd be billed the following:

Your locations	April gross sales	Percentage of April total gross sales	April Visa FANF cost to be billed per location
San Francisco	\$2,000.00	50%	\$4.50
Oakland	\$1,000.00	25%	\$2.25
Daly City	\$1,000.00	25%	\$2.25
San Bruno	\$0.00	0%	\$0.00
Totals	\$4,000.00	100%	\$9.00
